**SUMMARY OF THE REASONS FOR DECISION:**

The computer image file *Fdsamp02.jpg* is classified as:  
Objectionable.

The computer image file contains a colour photographic image that explicitly depicts a young woman and a man engaged in sexual activity. Accompanying text identifies the act as father/daughter incest. The presentation of a purportedly incestuous act for prurient interest and sexual titillation renders the availability of the publication likely to be injurious to the public good.

The Classification Office has weighed considerations under ss3(1), 3(3)(c) and 3(3)(d) of the Films, Videos, and Publications Classification Act 1993 with the right to freedom of expression set out in s14 of the New Zealand Bill of Rights Act 1990. Given the likelihood of injury to the public good if the publication were to be made available, the decision is considered to be reasonable and justified. The consequent restriction on freedom of expression reflects the concern of a “free and democratic” society to limit the availability of publications with such content.
